E-Snake EIVA Portable outdoor lamp IP65 with 3 lights with lampshades

Finish: White

Light bulb: Without bulb

Description

Clean design and timeless appearance: E-Snake is the outdoor lamp constructed by Creative-Cables with three light outlets framed by metal lampshades, that can be used anywhere by simply connecting the plug.

Exclusively produced in Italy, it was created with three lamp holder and two joints with IP65 protection degree. They are all part of the EIVA system, designed by Creative-Cables purposefully for outdoor spaces; it comes with an elastomeric rubber cable with textile covering. Also available in different finishes.

Please note: the IP65 protection degree is only guaranteed with A60, ST64, G95 and G125 shaped lightbulbs (constantly updating) and the EIVA lamp holder was exclusively designed to hold glass LED lightbulbs.

Patented by Creative-Cables, these lamps are designed and assembled in Italy. They are tested and CE certified from independent facilities based on rigorous norms.
