LED Light Bulb - Red Heart - 5W 150Lm E27 2000K Dimmable

Description

Love is in the light!

The Heart LED Light Bulb with a Red finish has a truly unique design, with a charming heart shaped glass and matching luminous filament, without forgetting to meet the efficiency and performance of an LED bulb as well as having the possibility of adjusting the light intensity by connecting it to a dimmer.

A precious detail, for an illumination made ... for the heart!

ATTENTION: to properly dim an LED bulb, a specific dimmer or the latest generation of universal dimmers is required. You will find a specific section on our website with a selection of both wall and in-line models.

Data Sheet

Fitting: E27

Width: 125mm
Light colour: 2000 K
Volts: 220/240 V
Energy class: G
Type of light bulb: Led
Consumption: 5W
Brilliance: 150 lumen
Height: 130mm
Shape: Heart
Adjustment: Dimmable

Our bulbs with straight filament can work with all DIMMERS (TRIAC or IGBT), while for curved filament bulbs, IGBT dimming is highly recommended.

For the choice of the dimmer: in addition to the maximum power of the user, the minimum power must also be considered, because when the regulated power is lower than the minimum rating, the user can "flicker" and / or be damaged.
